INTERNSHIP

UI/UX Development Intern

MSME

📅 Jan 2025 – Feb 2025 📍 Chennai

- Designed responsive UI prototypes and wireframes using Figma.
- Improved user experience through intuitive interface design.

Cybersecurity Intern

Retech Solutions

📅 Jun 2025 – Jul 2025 📍 Chennai

- Learned cybersecurity fundamentals and security best practices.
- Performed basic vulnerability assessment and documentation.

EDUCATION

B.E. Computer Science and Engineering

Dhaanish Ahmed College of Engineering

📅 2023-2027 📍 Chennai

CGPA: 8.2/10

PROJECTS

Automation Testing Framework for OrangeHRM

- Built a Hybrid Automation Framework using the Page Object Model (POM) for the OrangeHRM web application.
- Automated end-to-end test scenarios for Login, Dashboard, Admin, and Employee Management with reusable test components and reporting.

Loan Assets Mobile Application

- Developed a mobile application for loan asset registration and management.
- Implemented user authentication, asset upload, and admin approval features.
- Designed responsive interfaces with basic backend integration.

SUMMARY

Final Year Student Pursuing Computer Science and Engineering with expertise in Python programming language and basic knowledge in Java and Object-oriented Programming. Experience in performing Software Testing using tools such as Selenium WebDriver, TestNG, Cucumber BDD, Postman, Jira, Maven, and Git. Created a full automation suite of OrangeHRM and a Mobile Application of Loan Assets. Enthusiastic about Software Development, Test Automation, and Quality Assurance.

SKILLS
